

Social Media and Public Policy Resource

Posted by Denise Harlow - 23 Jul 2012 13:46

We are all using social media in new and exciting ways. Ran across this tool from the Alliance for Justice entitled: Influencing Public Policy in the Digital Age: The Law of Online Lobbying and Election-related activities Found here: www.afj.org/for-nonprofits-foundations/resources-and-publications/digital_age_public_policy.pdf

While not developed for Community Action it is a good resource to help us balance our efforts and mitigate our risk as we look to impact policy and use all tools available to us.

Denise, this is great information. Maybe it would be valuable to bring it to the forefront once again.

Thank you! This topic just came up again during a Management Team meeting. I'll bring this to the discussion.

Thanks for sharing!
